## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-13, drawn to an isolated polynucleotide encoding a polypeptide having starch branching enzyme IIb activity, plants and seeds transformed therewith and methods thereby, classified in class 800, subclass 298 for example.
- II. Claims 14-15, drawn to an isolated polypeptide having starch branching enzyme IIb activity, classified in class 435, subclass 183 for example.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are Group I drawn to an isolated polynucleotide having starch branching enzyme IIb activity, plants and seeds transformed therewith and methods therewith and the isolated polypeptide of Group II having starch branching IIb activity, wherein the polynucleotide and polypeptide have different composition, structure and function and the polypeptide of Group II is not required in the methods of Group I.

Because these inventions are distinct for the reasons given above, have acquired a separate status in the art as shown by their different classification, and the literature searches required for each of the Groups are not required for another of the Groups, restriction for examination purposes as indicated is proper.

Art Unit: 1638

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
